LinkedIn : Vishuvaa M

PROFILE

Passionate about Python, AI, machine learning, and data analytics. Excited to apply these skills to develop innovative solutions. Strong in problem-solving and decision-making, with a focus on practical applications.

EDUCATION

Sri Krishna Arts and Science College

2022 - 2025

B.Sc Information Technology

CGPA - 7.0

Bharani Vidhyalaya CBSE School

2021 - 2022

HSC - 68.6%

Chelammal Vidhyaashram CBSE School

2019 - 2020

SSLC - 90%

PROJECTS

Smart Traffic Management System: Designed a system using python to improve traffic flow by adjusting traffic light timers based on real-time vehicle counts. Used computer vision to detect and count vehicles, and processed data to update traffic signals quickly.

Virtual Mouse: Developed in Python, with OpenCV, Mediapipe, and PyAutoGUI to control the mouse using hand gestures, providing an alternative to a traditional mouse.

Fake News Detection: Using Python and machine learning to classify news articles as genuine or fake. Applies natural language processing (NLP) to analyze text and improves accuracy with different machine learning models.

TECHNICAL SKILLS

Python

SQL

PowerBI

Excel

CERTIFICATIONS

Data Science with Python

Simplilearn

Python for Machine Learning

MyGreatLearning

RDBMS PostgreSQL Training

Spoken Tutorial

Oracle SQL Database

Coursera

INTERNSHIP

Kaashiv Infotech

Gained hands-on experience in developing and deploying machine learning models during a 1 month internship. Contributed to projects involving data classification, regression analysis, and predictive modeling.

AREA OF INTERESTS

Python

Machine Learning
